How to Use Verjus? Verjus is a versatile, low-calorie, histamine-free ingredient. Milder than vinegar but tarter than white wine, it enhances both savory and sweet dishes. In savory cooking, use it like white wine: deglaze pans, enrich sauces, risotto, and vinaigrettes. In sweet applications, treat it like lemon juice due to its similar acidity. Verjus is popular in craft cocktails, balancing sweetness more gently than citrus juice. Enjoy it with still or sparkling water, on the rocks, with fruit (raw, poached, grilled, baked), as a reduced syrup, or even as a jelly.
